SUNIKA SK-2000

*Top speed Sunika
Lead the Printing World*

SUNIKA Eco Solvent Wide Format Printer

FIVE ADVANTAGES

- Original THK guide, super stable;
- Intelligent error alarm, more convenient on operation and maintenance;
- Auto suction-ink, auto clearing, and auto- protection system;
- Original imported cartridge capping station achieves the best effect of pumping ink, which keeps ink fluent.
- Original ink droplet on demand, eliminating the granular sensation of the images;
- One-head price, dual-head speed, value of cost- effective;
- Unparalleled high-speed and high-resolution.

*Indoor and Outdoor Printer
Peak of Eco Solvent Printer*

Max printing size 152cm(60")

Printing Speed (square meters per hour)

Draft Mode	3pass	21m ² /h
Production Mode	4pass	18m ² /h
Photo Mode	6pass	13m ² /h
Hyperfine Mode	8pass	9m ² /h

152cm (60") | Original THK Guide | Dual Four-colorPrint | 1440 nozzles | Intelligent Error Alarm | Color Ball | FDI Tech. | Feeding and Make-up System | Ink Droplet on Demand | Photo Print | USB2.0 | Borderless Print | Long time Print | Print Driver | MainTop

Eco Solvent Wide Format Printer

TECHNICAL PARAMETERS

Cartridge	Micro Piezo technology (180 nozzles x 8 line)*1 head	Application	VCCI Class A, FCC Class A, UL 60950,
Print Width	1520mm(60")	Interface	USB2.0
Resolution	540, 720, 1440dpi	Power Supply	AC220V-240V+ 10%,50%+1Hz
Print Mide	540x720dpi, 540x1080dpi, 720x720dpi, 720x1440dpi, 1440x1440dpi	Electricity Consumption	Below 1, 440 VA
Ink Type	Solvent ink - SS21	Width:	1620mm(63.9")
	Eco Solvent Ink-ES3	Weight:	below 25kg(55.1lbs)
Media	Water-based ink	Inkjet Media	Media Surface: Outwards
	Flex Banner, Adhesive Vinyl, PVC, Mesh, One Way Vision, Eco Solvent Inkjet Paper, etc.	Inner Diameter:	50.8mm (2in.) or 76.2mm(3in.)
Heating System	Front, middle, back three sections	Certificate	UL, FCC, TUV, CE Mark, ISO9001:2000
Media Take-up device	Equipped	Machine Weight	165KG
Operation	Temperature: 20°C-35°C(68° F-95° F)	Machine size	L*W*H: 2,410x700x1,250mm

- High quality imported materials with finer grain, more fluently;
- Suitable for printing continuously and with unique formula, good for cartridge;
- Moderate-dry property and having good compatibility,high durability
- Professional color calibration, more bright -colored and good reducibility.

Epson Dx5 original cartridge with high resolution 1440dpi, more brighter and lifelike.

- Epson Dx5, micro piezo and stainless steel cartridge.
- The width of cartridge 24.5mm, 8*180 nozzles, 1440 nozzles.
- Unique waves changeable printing technology, solve the problem horizontal grain.
- With FDI technology which can clean the nozzles automatically if clogged.
